SILVER DEPRECIATION.

What a Great English Financial Authority Thinks About It.

From the New York Nation.

Mr. Goschen, who is, perhaps, one of the highest financial authorities in the world, has delivered a very important speech on the silver question in the House of Commons, apropos of Indian Finance. He strongly depreciates any legislation about the depreciation of silver. He ascribes it in a much greater degree to the German demonetization than to the large production of the American mines, and, strange to say, makes no mention whatever of the cause assigned by Mr. Murat Halstead, the great Silver Prophet of the West—viz., the demonetization of silver in the United States in 1873; which looks as if Mr. Goschen did not keep up with the literature of the subject. He thinks that the German sales

ARE NOW NEARLY AT AN END.
The power of India to absorb silver he considered practically unabated, and he is totally opposed to interfering with the process by substituting a gold for a silver standard. He is also opposed to the introduction of the gold standard into any country in which it is not new in use, believing it to be for the good of the world that nations which like silver should keep it. But he declared "it was a perfectly different thing to say that those countries which had a gold currency ought to embarrass themselves with a silver currency as well," here again showing that he has not read Mr. Halstead's celebrated "silver articles."

Gold near Boca.

Nevada City Herald.

John Berry and J. S. Thompson, of this city, during last week visited a point on Prosser Creek, about six miles in a northwesterly direction from Boca, with a view of finding gravel mines. The gravel range there looks very similar to the pay gravel on the western slope of the Sierra, and upon prospecting the surface they found gold in similar quantities. They were unable to ascertain how far they were above bed rock. They think the gravel bed is at least fifty feet thick. They returned with a conviction that with proper investigation valuable placer mines may be discovered in that neighborhood, and they contemplate forming a company for that purpose. The gold found was coarse washed, having the appearance of being regular channel gold. We believe that heretofore no placer mines of this character have been found in California, east of the summit of the Sierra Nevada.

Novel Car Lamps.

The inventor, George Westinghouse, has devised a lamp for passenger cars, which, he thinks, will supersede the ordinary oil lamp. It has been tried with satisfaction on the North British Railway, Scotland, for sometime. The use of the Westinghouse brake places at disposal a large amount of compressed air. When air is passed over benzine or similar light hydrocarbons, it becomes saturated with the hydrocarbon vapor, and may then be burned just like ordinary illuminating gas. Beneath each car, therefore, a long cylinder is placed, which is filled with fuel saturated with petroleum. A current of compressed air entering the cylinder at one end and escaping at the other is led up to the roof of the car and burned in lamps of very elegant construction.

The Crops.

The July returns to the Department of Agriculture show that the corn crop will excel last year's. Some decrease in Ohio and Indiana, but an increase of seven per cent in Illinois. In Texas it is not over half a crop. The Northern states show a fair condition, while those west of the Mississippi river show a very high average, in some cases over 100. The tobacco average for the whole country shows a decrease.

The condition of the whole country is slightly below that of July 1, 1878. The Spring wheat returns for July give the average condition of Spring wheat at 91 against 105 on July 1, 1879.

The July returns for Winter wheat show an average condition of 91 against 101 for July, 1878.

The Pilgrim Mothers.

A vivacious young lady having been asked what she thought of the Pilgrim Fathers, replied that she thought them "dreadful old fellows." And she added, that she was greatly pleased with the remark of a speaker at one of the annual dinners of the New England society, who, amid the usual toasting of the Pilgrim Fathers, suggested that something should be said in laudation of the Pilgrim Mothers, who had been obliged to endure all the sufferings that the Pilgrim Fathers encountered, and the Pilgrim Fathers themselves beside.

Chinese Immigration.

The number of passengers arriving at San Francisco by sea from foreign ports last month was 2873, and the number of departures was 369. These figures include 1,234 arrivals from China and Japan, against 301 departures, showing a gain of over 1500. This is the largest net gain from that source for many months.

INDIAN BARBARY.

A Three Year Old Papoose Buried Alive in the Grave of a Warrior.

[Silver Leaf Miner.]

The death of a Ute buck near Toquerville, Utah, a short time ago, showed that the old chief who begs biscuits at that settlement is blooded. He forthwith decided to kill a squaw to accompany his favorite warrior, but the squaw, getting a hint of her intended funeral, hid herself so effectively that no clue could be got of her whereabouts. As the time allowed for the sacrifice was rapidly passing, the old chief, in order not to be defeated, selected a three-year old papoose, which he took from its mother and buried in the grave of the deceased. The head of the child was left projecting out of the ground so that it could breathe, but he allowed no one to go near it. Bishop Bringhurst, discovering the commotion in the tribe, traced out the cause and saved the life of the child after it had been in the situation described two or three days. The mother of the child was afraid to tell what had happened, though she was observed to be grief-stricken. The Toquerville people thought seriously of burying the old Lamante with his head the other way, but he insisted the religion of the Pueblos required him to do what he had done.

Platinum Wanted.

From the Virginia Chronicle.

Recently Mr. Edison exchanged several letters with Professor Stewart of Virginia on the subject of platinum, where it is likely to be found, etc. In his last reply Professor Stewart stated that in Santa Clara county, California, platinum exists in a seam of talc, enclosed in hard schistose rock. About two years ago men worked the mine, selling the platinum in San Francisco for \$12 or \$15 an ounce. Edison offers \$20,000 for the discovery of a mine of that rare metal.

A terrific thunder shower, with a high wind and hail, swept over Woodville, N. H., recently. Hail fell the size of hen's eggs. Several houses were unroofed and sheds blown down, and not a house in town but what had the windows broken. The crops are ruined and the damage to vegetation is very heavy.

Arizona—Spanish for arid zone or dry region.

Dr. Mintie's Nephritis.

Dr. MINTIE'S Nephritis works wonders. In all cases of Dropsey, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, these troubles are entirely cured by the Nephritis. Female Weakness, Gravel, Diabetes, pain in the back side and loin are cured when all other medicines have failed.

See what the Druggists of Portland and San Francisco say about Dr. Mintie's Nephritis and English Dandelion Pills:

"We have sold a large amount of Dr. Mintie's medicines; the English Dandelion Pills; also the Nephritis, and in all cases they are highly spoken of and give entire satisfaction."

John A. Childs, Druggist, Second street, Portland.

C H Woodward & Co., Druggists, corner First and Alder street, Portland.

Messrs. Abrams & Carroll, wholesale, Druggists, Nos. 3 and 5 Front street, San Francisco, say:

"We regard Nephritis as the best Kidney and Bladder Remedy before the public."

All Druggists keep these medicines.

For all derangements of the Liver,

Use Dr. Mintie's English Dandelion Pills.

For Billiousness and Dyspepsia,

Use Dr. Mintie's English Dandelion Pills.

For Fever and Ague.

Use Dr. Mintie's English Dandelion Pills.

Every family should keep the English Dandelion Pills on hand.

Dr. Mintie's Remedies will not "cure all Complaints," but will, if taken according to directions, give immediate relief and perfect a cure in all troubles for which they are recommended.

THE BONANZA CITY EDITOR.

Bonanza City has no newspaper yet, but will have one soon. It is to be called the *Yankee Fork Herald*. The editor is there already. He will no doubt publish an aggressive paper. Not long ago he was being shaved, and sat silently while the barber held him by the nose and told the editor that his hair was getting thin and turning gray very fast; and that his head was full of dandruff and needed shampooing. He said nothing when the barber tried to sell him a bottle of "Bonanza City Hair Reproducter," and recommended him to have his hair shaved. The newspaper merely shook his head when the tonsorial artist endeavored to press upon him a barbed wire hair brush and bottle of "Sitting Bull Scalp Exhilarator." Oh, no, he didn't say anything, but when he rose from the sacrificial chair, he made a violent assault on that tonsorial artist and skinned his nose. The *Yankee Fork Herald* will be a stalwart reform paper.

EDITORIAL NOTES.

A great quantity of hot water is now flowing through the Sutro tunnel from the Comstock mines. The Savage and Hale & Norcross are fast being drained, and the 2200 foot level of the Savage will soon be accessible. There is no water below the 1800 foot level at the C. & C. shaft. The Ophir water is running to the tunnel in a steady stream. The *Enterprise* remarks:

"Already a great saving of wood is seen at the Ophir and C. & C., and a great strain has been taken off the machinery. The tunnel has given the mines a new level 1600 feet below the surface, and from that point they are just now taking a new departure."

A little dog foiled burglars in an attempt to break into a store in Bodie last week. The barking of the dog awakened his owner, and frightened away the thieves. The incident recalls an anecdote of a celebrated English crackman, who once said that "the best protection against burglars is a good Scotch terrier. A terrier can neither be bribed nor silenced." There is often more protection in a barking dog than in bolts and bars, as was illustrated in the Bodie case.

The Austin *Reveille* dreads a prolonged drought and fears that there will be a large quantity of whiskey drunk in the absence of water. The *Reveille* puts it wrong. There might be a large quantity of water drunk in Austin in the absence of whiskey, but the consumption of the last named there could hardly ever be affected by the state of the water supply.

Kearney, the irrepressible blackguard, is again stamping the state of California, coining new phrases wherever he goes. His latest invention is "classical consumptives," of whom he wants none on his party ticket. Kearney has originated many hard names which have been thrown back at him, but "classical consumptive" is a term which will never be applied to Kearney.

The Modoc *Independent* has recently passed into the hands of W. F. Edwards, formerly one of the proprietors of the *Gazette*. The first number of the *Independent* issued under its present ownership came to hand to-day. The paper shows a marked improvement, is new, fresh and entertaining, and should receive a good support from the people of Modoc county.

The *Mining and Scientific Press* has reached its thirty-ninth volume and began its twentieth year. It is a well edited paper, contains a great deal of good matter of general interest, and is finely illustrated. The mining man finds it especially valuable, as it gives all the mining news and latest improvements in machinery, working ores, etc.

The *Astorian* has the following at the expense of the detective: "We stop the press to announce that the detective ate hard at work at Wheatland. To-day being Sunday, they ought to take rest from their long and arduous labor."

"The bottle blowers of the United States, whose National Convention has lately adjourned, decided that, henceforth they will do no work during the months of July and August—the two hottest months." This innovation of the glass blowers will be apt

to raise the price of bottles, and is therefore bad news for Bodie.

Judge Jessie O. Goodwin, a leading lawyer of California, is dead. He was brother to C. O. Goodwin of the *Virginia Enterprise*. At the time of his death he represented Yuba county in the state senate, in which body he was serving a second term.

In the examination of the Dupont Street frauds at San Francisco, the testimony of H. S. Tibbey, if true, is very damaging to Mayer Bryant. Tibbey asserts that Bryant and the Board of Commissioners were parties to the frauds.

The *Times-Review* credits to the *Gazette* a story about a \$3000 roll of gold notes, said to have been destroyed by mice in Reno. The *Gazette* did not publish any such item and has been unable to learn of any such occurrence.

A Bonanza city correspondent of the Salt Lake *Tribune* writes that a one-third interest in the Great Custer mine at Yankee Fork was recently sold to Jennings of San Francisco for \$100,000.

Hot weather is making sunstroke common in the East. At New York last Monday the mercury marked 99° in the shade.

The Ogden *Dispatch* has been enlarged and now affords more scope for the journalistic ability of its editors.

Look out for counterfeit greenbacks. They are numerous just now in California.

Congressman Daggett got back to the Comstock yesterday.

STATE NEWS IN BRIEF.

Austin has a hard working Pinto. Water melons \$1.50 each in Europe.

Eureka has a pretty girl who can wag her ear like a mule.

Austin's first new potatoes came in July 15.

Piutes are emigrating from Austin to Stillwater, Churchill county.

Every boy in Eureka has become a dog-snatcher since the tag law went into effect.

John Gillespie and Joseph Wells, good citizens of Bodie, emigrate to Bodie to-day.

Eureka man in trying to shoot broken-legged horse killed most valuable animal in the herd.

The lower levels of the Julia mine are now so hot that work in them is impossible.

John Peltier, a twelve year old boy had a thigh broken last Monday at Austin by the kick of a horse.

This is the windiest summer, says the *Appeal*, that Carson has experienced in 15 years.

J. A. Winnemucca baby was found playing with a live scorpion about two inches long, but was not stung.

Austin has a boy who holds himself open to fight all comers of any weight not exceeding twice his own.

Eureka hospital patients deny that they are lousy and say there are no vermin in the institution.

A centipede 2½ inches long was caught in the attic of S. W. Waugh's residence, in Silver City, last Friday evening.

The *Times-Review* states that ten stamps or the Grand Prize mill commenced running on ore from the company's mine between the 10th and 15th inst.

The Shoshones drive quite a hand-some trade in Humboldt river trout, coming up from Palisade to Eureka every night with strings of piscatorial booty.

Cyrus Packard, J. G. Chase and N. Tuckerman received the contract to build the new theatre in Eureka for \$7547, the building to be completed October 1st.

Case of spontaneous combustion at Eureka last Friday. Oily rags caught fire in a closet, but were promptly extinguished. Oily rags always dangerous.

On Sunday afternoon J. C. Robertson, the principal teacher at the Industrial School, near San Francisco, was assaulted by five boys and received injuries from which it is doubtful if he ever recovers.

When the bulkhead burst in the twelfth level of the Consolidated the pressure was so great that it snapped a slender four foot square timber as easily as if they had been pipe stems, says the *Eureka Leader*.

S. B. Segur, Supt. of the Succor mine, had his leg broken at Glenbrook last Monday by the falling of a tree, which he had cut to make room for a swing. It is feared that amputation will be necessary.

David Geroux, proprietor of the Winnemucca Hotel, is making arrangements to sink an artesian well. He received over 200 feet of tubing yesterday, and will commence boring at once. Should he succeed in getting flowing water, others will follow his example, not only in town, but in different parts of the valley along the river. So says the *Silver State*.

Eureka man boasted that his horse would come when he whistled for him. Gave exhibition of animal's sagacity, some miles out of town. Unharnessed and turned him loose. Then whistled; horse moved farther off. Whistled again, on other side of mouth. Horse's manner still more distant. Crafty fellow man dragged buggy into town, and horse returned home by different route.

The bottle blowers of the United States, whose National Convention has lately adjourned, decided that, henceforth they will do no work during the months of July and August—the two hottest months." This innovation of the glass blowers will be apt

Plumbers Jab-Jabs.

[From the National July 14.]

The constitutional convention met at the town hall on Tuesday and nominated a full ticket.

The grasshoppers are coming down the river from Beckworth Valley, and had reached the head of Mohawk when last heard from.

The dwelling house belonging to Isaac Hall, in Greenville, caught fire from a defective stovepipe on Sunday last, and burned to the ground. An organ and sewing machine was all that was saved. No insurance. Loss estimated at \$2,000.

K. McClellan and Mat. Juhl were severely injured on Thursday in a tunnel at Butterly, by the fall of a large rock. McClellan had some bad cuts on his head and back, and Juhl lost a little finger, which was mashed to powder. Dr. Fiske attended them and they are doing as well as possible.

One of the sneak-thieves who have been loafing around town was arrested one day last week on a telegram from the officers in Chico that he was wanted there on a charge of burglary. Marshall Rundell, of that place, came up on Saturday and took him away. He also took Jeff. Dunlap, who was wanted as a witness.

Just as we go to press we learn that Mr. J. G. Maxwell, of Butterly, met with a very serious accident on Friday. A team which he was driving ran away and upset the wagon, throwing Maxwell out and breaking his ribs, one of which punctured the lungs. He was unconscious most of the time since, and Dr. Fiske, who attends him, thinks the case a serious one.

English Races.

LONDON, July 17.—Entries for the great three year old races of '81 have been published. They show very many American nominations. Lorillard had nominated six horses; J. R. Keene five, and M. H. Sanford two for the Derby.

Murder and Lynching.

VISALIA, Cal., July 17.—Arthur Townsend, a young man of Plano, Tulare county, was murdered by Indians in the mountains on Tule river a few days ago. The murderers were lynched by white men.

Taking Him Down.

SAN FRANCISCO, July 17.—At the meeting of the Democratic State Central Committee, yesterday afternoon and evening, the propriety of taking Glenn off the ticket was discussed. Glenn was present and said he was first nominated by the H. B.'s, and that in justice to them he would have to support their ticket. The Committee, after the conference, debated the question, and adjourned, without taking any action, until next Saturday. It is said that a majority of the Committee favor taking Glenn off, and that the movement is in the interest of Governor Irwin, whose name is likely to take the place of Glenn's.

The Walking Women.

SAN FRANCISCO, July 17.—In the women's walking match, at twelve o'clock to-day the score stood: La Chapelle, 41 miles; Fannie Edwards, 38; Donley, 37; others below 30 miles.

Bullion and Exchequer.

SAN FRANCISCO, July 16.—At the regular executive session this afternoon John W. Coleman called the attention of the San Francisco Board to glaring frauds alleged to have been perpetrated by the inside manipulators of the Bullion and Exchequer mines. He brought facts and figures to sustain his position and impress upon the minds of the members of the institution the importance of demanding a reform and honest management. It was resolved to make an investigation by the Board of the affair, and the Executive Committee now has the matter in charge.

THE PARDON OF MADDEN.

A Brief Review of the Case—A Conviction Resulting From Association With Bad Characters.

William Madden has just been pardoned and restored to citizenship by the board of pardons. He was convicted last April, in conjunction with G. F. Gardner, of the robbery of Wm. Luke shortly after the fire. The evidence against him was wholly circumstantial, but very pointed. When he and Gardner were called up for sentence, Gardner stood up in court and proclaimed Madden's innocence. The judge, however, had no alternative but to pass sentence. Shortly after Madden's incarceration in the State Prison, his mother, a respected lady, and some friends of the family circulated a petition for his pardon. Judge King, the jury, and a large proportion of our citizens signed it, and a pardon secured. Madden is well known in Reno, having lived here for a number of years. For a long time he was industrious and self-respecting, but his associations became bad and he lost caste in the community. However, he never was accused of committing a crime before, and his conviction was probably the result of bad company more than anything else. He has had a narrow escape which should teach him a lesson worth remembering, and lead him to shun the association of self-confessed thieves and prostitutes. They have caused him all his trouble and if he does not profit by the experience he will show himself lacking in wisdom, and love and respect for the mother whose great love reached through the prison portals and gave him freedom again.

Grasshopper Exterminator.

The little red bug described by Prof. Lemmon has appeared in Long Valley and is making it very unpleasant for the grasshoppers. Antelope ranch has specimens but they do not number one to a million grasshoppers.

When they do attack a hopper they bore into his body under the wing and soon kill him.

Banner Brothers' Clothing Store.

The Banner Brothers have constantly coming and always on hand the latest styles of clothing of every variety. They sell men and mean business. They sell at the very lowest possible rates. Look at some of their prices:

Full Suite—Coat, Pants and Vest... \$ 5.00
Men's Cashmere Suits.....\$ 7.50
Men's Diamond Suits.....\$15.00
Black Dress Suits.....\$25.00

These suits are worth double the present prices. Banner Brothers have the finest stock to be found on this coast, embracing everything a man can get on his back together with all sorts of trunks and valises to put it in. They have just received an immense stock of Spring and Summer goods. Call and see them. Corner of C and Taylor streets, Virginia, Nev. BANNER BROTHERS. July 19

Talk is Cheap.

And so are fine clothing, boots, shoes and gentlemen's and boys' fine furnishings goods, if you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we do competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this state. Everything we have is new. No old, musty, and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices, and examine our stock before going into those humbugging, Cheap John shops, in which they draw into the eyes of the customer that they sell at cost and even below cost. Anybody who common sense must know that they lie. No stereotyped seller goods for the fun of the thing, we make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. We particularly call attention to our new stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods forms one of our specialties. PIANOS,

LEGAL NOTICES.

Summons.
IN THE DISTRICT COURT OF THE STATE OF NEVADA, in and for the county of Carson.
The Honorable Mr. Justice Arden Jones, presiding: You are hereby required to appear in an action commenced against you as defendant by Jenkins Jones, plaintiff in the District Court of the State of Nevada, and in the County of Washoe, State of Nevada, and answer the complaint therein, within ten days after the service on you of this summons, exclusive of the day of service, or within ten days if it served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of the plaintiff. This notice is given to obtain a decree dissolving the bonds of matrimony heretofore and now existing between plaintiff and defendant. Plaintiff alleges: That plaintiff and defendant, during their marriage, resided in California, on or about July 29th, A. D. 1873, and ever since have been and now are husband and wife; that on or about September 9th, A. D. 1875, you, the defendant, willfully abandoned plaintiff, and ever since have continued and do now so continue to desert, abandon and live apart from the plaintiff against her will, wish or consent; that for over two years past plaintiff has been in remittance of this action you, the defendant, have failed and neglected and do fail and neglect to provide for the plaintiff the common necessities of life, which neglect is such as is not the fault of poverty of your part, which you could not have avoided by ordinary industry; that there are no children living of the issue of said marriage and no common property. Plaintiff prays that you be ordered to make a decree of divorce, all of which will more fully appear from the complaint which is on file in the office of the clerk of said Court at Reno, in this county, and you are directed to file your answer and answer and answer complaint, if the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof I, J. P. B. COMSTOCK, have affixed the seal of said Court this sixth day of December, A. D. 1878.

P. B. COMSTOCK,
Judge of the District Court of the Second Judicial District, Nevada, and for Washoe County, Nevada.
